Team Members

*Thank to each of you for signing up for another great build. Very excited to have new team-mates on board- **Mona, Jonathan and Jenna- Welcome!**, -we hope this will be one of many trips you take with Habitat. Welcome back to those signed up for another build- this makes 10 homes in Zambia that we've been privileged to build, since members of this group became involved with Global Village. (That's shelter for about 60 people!) Our build in May will add to this growing number, providing a warm safe place for families to lay their heads at night, and for us, the honour of playing a part in that process, and getting to know these amazing people.*

We have 11 people confirmed on the team.

Zambian Kwacha

Thanks also to Sam and Jenna for putting together a great website about Habitat, about Zambia, about our team, and the build in May. Please take a moment to look at it, and send in a bio of yourself- they've got a section for each of us. This really helps to spread the word about Habitat's mission, so don't be shy- you're part of it! (and you don't want me to put in a photo or bio of you- or maybe you do?)

www.cacoza.com

That 's short for Canada, Colorado, Zambia!

Further newsletters will be sent out as needed, and as we get closer to departure. Please get in touch with me at any time if you need help with anything, or have any questions- or , use our
